

PARRIX

Stone Care Products

ISO 9001:2015 CERTIFIED COMPANY

- TILE ADHESIVE
- STONE ADHESIVE
- SHINERS • CLEANERS
- EPOXY GROUT • SEALERS

A Revolution of _____ **STONE CARE PRODUCTS**

ABOUT **PARRIX** _____

Parrix Industries is a leading manufacturing Company in the world of Epoxy and adhesive Chemicals. Quality and Service has been the premise of our business from starting.

We manufacture Tile Adhesives, Italian Adhesives, Grout, Epoxy Grout. Tile Cleaner, Sealers & all Stone Care Products.

We believe in quality products with services. We are having two units to manufacture all the products one is in Uttarakhand and 2nd one in Punjab.

We have been Awarded in quality management system

ADHESIVE SYSTEMS

PARRIX ADHESIVE 305 Grade

Parrix Grade 305 is Polymer Based Thin Adhesive. It is Recommended For Internal and External Use in Layer Thickness of 3mm. It is Recommended To Use In Floor Applications Only.

Colour : White/Grey

PARRIX ADHESIVE P-40/S-1 Grade

High-performance deformable cementitious adhesive with no vertical slip and extended open time for ceramic tiles, particularly recommended for laying large porcelain and natural stone tiles (thickness of adhesive from 3 to 15 mm).

Colour : White/Grey

PARRIX ADHESIVE 307 Grade

PARRIX 307 floor and wall tile adhesive is a smooth and creamy thin-set Adhesive for installing small to medium format ceramic wall and floor tiles in interior areas. For fixing ceramic tiles on interior floor & wall deal for new floor tiling Smooth & Creamy Single component-Just add water.

Colour : White/Grey

PARRIX ADHESIVE 315 Grade

A high performance polymer based adhesive to be mixed with water or latex for installing medium & large format ceramic tiles, vitrified tiles, marble and stone on floors and walls.

Colour : White/Grey

PARRIX ADHESIVE 335 Grade

Heavy Polymer Based Adhesive Specially Used For Ceramic Tiles, vitrified Tiles, natural Stones, italian and Large Format Tiles and Stones on Interior exterior Floor & wall.

Colour : White/Grey

OUR PREMIUM RANGE OF STONE & TILE ADHESIVES

PARRIX ADHESIVE S-2 Grade

Adhesive with extended open time. It can be used for interior as well as exterior. Recommended for tile and stones. It Comes With Ultra Latex.

Colour : White/Grey

PARRIX ADHESIVE (GEL ADHESIVE)

Multipurpose Gel-Adhesive, structural, flexible, thixotropic & fluid. For ceramic, porcelain and natural stone of all types and formats. High adhesion and deformability. Excellent work ability.

Colour : White/Grey

PARRIX LATEX

Parrix Latex is designed for modifying portland cement composition. The superior adhesion, ultraviolet light resistance, water resistance and increased mortar strength properties provided by previous products have been complemented by improved low labour formulation.

Colour : White/Grey

Approx. 55-60 Sqft per 20kg bag with 1/4" x 1/4" (6mm x 6mm) square notched trowel for average bed of 3mm.

POLYSTER SYSTEMS

PARRIX LIQUID MASTIC

Parrix Liquid Mastic is a paste like two component stone fillers and adhesives for natural and artificial stones like marble, granite, limestone and terrazzo. Very good working on horizontal and especially on vertical surfaces. Very thin bonding joints due to very soft and creamy consistency. Very fast hardening, good grindability, well polishable.

Colour : White/Ivory

PARRIX SOLID MASTIC

Parrix Solid Mastic is a paste like two component stone fillers and adhesives for natural and artificial stones like marble, granite, limestone and terrazzo. Very good working on horizontal and especially on vertical surfaces. Very thin bonding joints due to very soft and creamy consistency. Very fast hardening, good grindability, well polishable.

Colour : White/Ivory

PARRIX GEL

Parrix Gel is predominantly used in stone processing industries for filling and bonding natural and carved stones. The product is soft and creamy when stirred and spread. Thus making it very easy to fill small and large cracks on surface. Fast drying enables further processing without any problems.

Colour : White/Ivory

COLOUR TINT

Parrix Colour Tint are paste like concentrates in numerous colour shades. Different colours are available according to stone colours.

Weight : 50GM

PARRIX P-8 RESIN

Liquid Resin extra Clear at low viscosity used for gluing and filling clear-white marble like Carrara and similar stones. It is suggested to filling the travertines and similar stones to achieve the filled transparent effect. Very stable to the ray sun. It has a very low shrinkage. Good the reactivity at low temperature.

Weight : 50GM

PARRIX SBR-47

PARRIX SBR-47 polymer modifies water resistant mortar for structural repair and bedding mortar. Slurry bond coat for concrete & renders waterproof slurry coat. Provides excellent bond of existing substrate. It makes structure impermeable to liquids. It can be used as polymer modified plaster.

Weight : 50GM

CLEANING SYSTEMS

PARRIX TUFF CLEANER

Quick Action, Concentrated & Highly Effective Quickly Removes Cement deposits, Rust marks, Hard Water marks, Soap scum, Grease, Scuff marks, Dirt, Grime & cleans Grout from Floor and wall tiles without affecting the texture of glaze of tiles.

PARRIX RUST REMOVER

For the removal of superficial rust stains produced by ferrous substances or objects (fertilizers, tools, iron parts etc.) on natural and artificial stone or concrete ashlar being sensitive to acids. Ideal for polished marble or lime stone surfaces already laid or ready to be laid. Can be applied punctually on stone surfaces because no changes appear.

PARRIX PREMIUM SHAMPOO

Parrix Premium Shampoo is a scientifically blended, liquid detergent for cleaning floors and oily/greasy work area. It contains mixed additives & special ingredients to enhance cleaning performance and shine. Parrix Premium Shampoo can be effectively used to clean floors in factories, workshops, hotels and restaurants, public areas, office blocks, toilets etc. It effectively removes oils, greases & dirt from heavily soiled areas in service stations and garages & leaves a pleasant fresh fragrance. When used along with single disc machine it imparts new like shine to the floorings.

PARRIX STAIN OUT

Parrix Stain Out is absorbed Stain Cleaner for sensitive surface. It is an active, Acid free cleaner, specially formulated for polished sensitive surfaces like marble, granite or stones. Based on an effective formulation, your sensitive surfaces will not lose their shine, colour or texture. Ideal for persistent, deeply absorbed stains like coffee, wine, oil, tomato or other organic materials.

PARRIX EPOXY GROUT REMOVER

A water based detergent for post-installation cleaning. It removes epoxy based residues of grout and glue, no matter how old or stubborn they are. Suitable for use on all acid sensitive materials grouted with epoxy grout. For using this product on marble & natural stone it is recommended to carry out a patch test in advance, as it can etch the surface.

PARRIX FLOOR SHAMPOO

Parrix Floor Shampoo is a scientifically blended, liquid detergent for cleaning floors and oily/greasy work area. It contains mixed additives & special ingredients to enhance cleaning performance and shine. Parrix Floor Shampoo can be effectively used to clean floors in factories, workshops, hotels and restaurants. It effectively removes oils, greases & dirt from heavily soiled areas in service stations and garages & leaves a pleasant fresh fragrance.

PARRIX FLEXI EPOXY

TECHNICAL DATA SHEET PRODUCT: EPOXY RESIN MP – 111 & 310		
PROPERTY	EPOXY RESIN	HARDENER
Appearance	Clear Liquid	Clear Liquid
Viscosity by BF at 40 °C	700 – 1500 cps	25 -100 cps
Mixing Ratio with hardener	100 grams	48 ± 2 grams
Hardness	Shore D	65 flexible (10%)
Gelling time at 27°C	Minutes	90 ~ 180
Curing at 25 °C	hrs	8 – 10
Shelf Life	Months	Six

PARRIX PROTECTION SYSTEM

PARRIX DENSIFIER

DAMP PROOF, WATER, DIRT & A STAIN REPELLENT PROVIDING SURFACE CONSOLIDATION FOR CONCRETE, ITALIAN STONE PARRIX DENSIFIER is a ecological water base treatment to solidify concrete or any stone and protect surface from dirt, food, mould and mildew. Product is highly recommended for porous surface and makes surface harden. Also used additive for concrete.

PARRIX STONE SILL 200

Parrix Stone Sil 200 is advanced lithium chemistry for marble & Natural Stone. This easy to use water based solution requires no rinsing and VOC complaint in all areas of the world. When applied it penetrates up to 1/4 inch depend upon the porosity of the surface where it reacts with free calcium to form insoluble calcium silica hydrate, which makes the surface more water, stain, and abrasion resistant for easier maintenance and longer life. It is also suitable for polishing procedures and help.

PARRIX STONE SILL 800

Parrix Stone Sil 800 is advanced lithium chemistry for marble & Natural Stone. This easy to use water based solution requires no rinsing and VOC complaint in all areas of the world. When applied it penetrates up to 1/4 inch depend upon the porosity of the surface where it reacts with free calcium to form insoluble calcium silica hydrate, which makes the surface more water, stain, and abrasion resistant for easier maintenance and longer life. It is also suitable for polishing procedures and help.

PARRIX SILICATE 1500

Parrix Silicate 1500 is a silicone based product, it is used with 1500 abrasives. When applied it penetrates up to 1/4 inch depend upon the porosity of the surface where it reacts with free calcium to form insoluble calcium silica hydrate, which makes the surface more water, stain, and abrasion resistant for easier maintenance and longer life. It is also suitable for polishing procedures and help.

PARRIX PROTECTOR

Parrix Stone Protector is used for water, grease and oil repellent treatment for mineral building material, e.g. natural and cast stone (polished, ground or rough surfaces of marble, lime stone, granite, porphyry, cotto, terrazzo, fine stoneware concrete unglazed ceramic tiles etc.) The product is especially used on stone floors in kitchens, bathrooms for table window-sills and tile joint.

PARRIX NANO SEALER

A Special impregnation which repels water, grease and oil. Used to protect flooring, table tops and working surfaces made of absorbent natural and artificial stone (Marble, Solnhofen Stone, Sandstone, fine stoneware). For indoors and outdoors. Prevents the stone from staining or makes the removal of spots much easier.

PARRIX COLOR ENHANCER

Solvent based polishing protective color enhancer aimed to protect marbles, granites and natural stones from water and dirt penetration, frost damage and to stop calcareous efflorescence.

POLISHING SYSTEMS

PARRIX SHINNER

Solvent based polishing protective color enhancer aimed to protect marbles, granites and natural stones from water and dirt penetration, frost damage and to stop calcareous efflorescence.

PARRIX CRYSTALLIZER

We have established ourselves as a dependable firm, committed toward manufacturing, exporting and supplying of parrix crystallizer. It is a no 1 Liquid product for polishing Italian Marbles, Indian Marbles and Kotastones. Its application is very simple and gives brilliant Mirror Gloss.

PARRIX 500+ POWDER

PARRIX 500+ Powder is not only one of the best polishing powder but it is also an excellent chemical for daily cleaning of hard surfaces. It cleans quickly and polishes a wide range of surfaces including marbles, ceramics, porcelain and glass surfaces. It is fine abrasive (to be mixed with water) to remove fungus, soap scum build-up and embedded stains in grouting immediately. This product is suitable for use in kitchens, restaurants, shopping mall and all type of stone surfaces, whether with honed or rough surface textures.

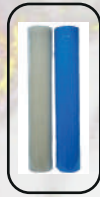

PARRIX 1000+ POWDER

Parrix 1000+ Powder is composed of polishing and crystallization components with which optimal shine results are achieved. This surface treatment facilitates daily floor care because dirt does not stick. Parrix 1000+ Powder removes very small, fine scratches and thus increases the stone's contour acuity. Treatment with Parrix 1000+ Powder improves floor tread properties.

PARRIXTAPE

GUARD YOUR FLOORS

PARRIX TAPE is a transparent pressure sensitive, acrylic, based, easy peel adhesive which is used to provide protection to floors and other surfaces, it can be used over high gloss surfaces during mechanical processing for transportation and storage.

PARRIX BACK COAT

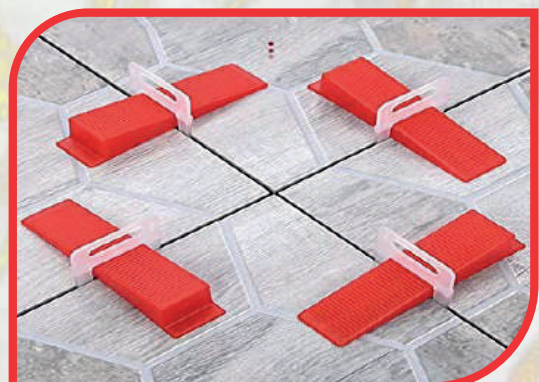

PARRIX BACK COAT is a modified polymeric solution specially formulated to achieve a stronger bonding between smooth concrete surface with marble, tile and any type of stone. It increases attraction and protect from moisture also.
